Why should you sign up for id?
i) Resolves name ambiguity

Thus, ensuring you receive due credit for your works
ii) Lifelong ID

For example, your email address will change when you move institution, but your ORCID ID won’t.
iii) Makes your life easier

- ORCID is integrated in many research workflows, enabling information to be entered once, and reused often…
ORCID @ NUS: About ORCID

(Open Researcher and Contributor ID)

**About ORCID**

**What is ORCID?**

- ORCID is the acronym for Open Researcher and Contributor ID. This open source, not-for-profit community-driven initiative helps all who participate in scholarly research and innovation to be uniquely identified and connected to their contributions and affiliations across disciplines, countries as well as time.

- ORCID provides a standard unique author identifier that
  - Increases your research visibility
  - Connects your research to you throughout your career
  - Distinguishes you from other researchers with similar names
  - Minimizes the time you spend filling out forms when submitting research for publication or applying for grants
  - Is being required by major journal publishers and funding organizations

View the video below for more information, or simply go to the ORCID website—http://orcid.org/ to register.
