FindMore@NUSCL - Psychology

Introduction

This subject guide covers resources available at the NUS Libraries. This is not a comprehensive subject guide, but rather a selective list of materials that are most useful for locating information in Psychology.

Please feel free to contact us if you have any questions about these resources.

Search for Known items

FindMore vs. LINC

FINDMORE

- Searches LINC & more
- Covers books, eBooks, journal articles, newspaper articles, online thesis & more
- Used for broad searching

LINC

- Good for known item search
- Covers books, DVDs, music scores
- Cannot be used to search for journal or newspaper articles

The screenshot shows a PDF viewer interface. At the top, there is a toolbar with various icons for navigation and zooming. Below the toolbar, the document content is displayed. The text on the page includes the journal title 'Journal of Abnormal and Social Psychology', the volume and issue information '1963, Vol. 67, No. 4, 371-378', the article title 'BEHAVIORAL STUDY OF OBEDIENCE', the author's name 'STANLEY MILGRAM', and his affiliation 'Yale University'. The main body of the text begins with 'This article describes a procedure for the study of destructive obedience in the laboratory. It consists of ordering a naive S to administer increasingly more severe punishment to a victim in the context of a learning experiment. Punishment is administered by means of a shock generator with 30 graded switches ranging from Slight Shock to Danger: Severe Shock. The victim is a confederate of the E. The primary dependent variable is the maximum shock the S is willing to administer before he refuses to continue further. 26 Ss obeyed the experimental commands fully, and administered the highest shock on the generator. 14 Ss broke off the experiment at some point after the victim protested and refused to provide further answers. The procedure created extreme levels of nervous tension in some Ss. Profuse sweating, trembling, and'.

Creating Search Statement

1. Identify Keywords

Topic : Has **Milgram**'s **experiment** been **replicated** and published in recent times?

| Keyword 1 | Keyword 2 | Keyword 3 |
|----------------|-------------------|--------------------|
| Milgram | experiment | replication |

Creating Search Statement

2. List Synonyms & Related Words

- Think about other terms such as
 - synonyms or related terms
 - alternative spellings e.g. US vs British

| Keyword 1 | Keyword 2 | Keyword 3 | Synonyms |
|-----------|---------------------|---------------------------|----------|
| Milgram | experiment study | replication replicated | |

Tips: Look up synonyms in:

- ✓ built-in thesaurus e.g. PsycINFO, subject headings, key concepts, descriptors
- ✓ Books, dictionary, handbook or encyclopedia

Creating Search Statement

3. Broaden a keyword search with *

- Truncate using **asterisk *** to pick up plurals and variants e.g.
*stud** = *study, studies, studied, **studious** ...*

| Keyword | Keyword | Keyword |
|---------|-------------|-----------|
| Milgram | experiment* | replicat* |
| | stud* | |

Creating Search Statement

4a. Combine keywords with **AND/OR**

- Use **AND** to combine keywords
- Use **OR** to connect synonyms, related terms

| Keyword | | Keyword | | Keyword |
|---------|------------|-------------|------------|-----------|
| Milgram | AND | experiment* | AND | replicat* |
| | | OR | | |
| | | stud* | | |

Create Search Statement

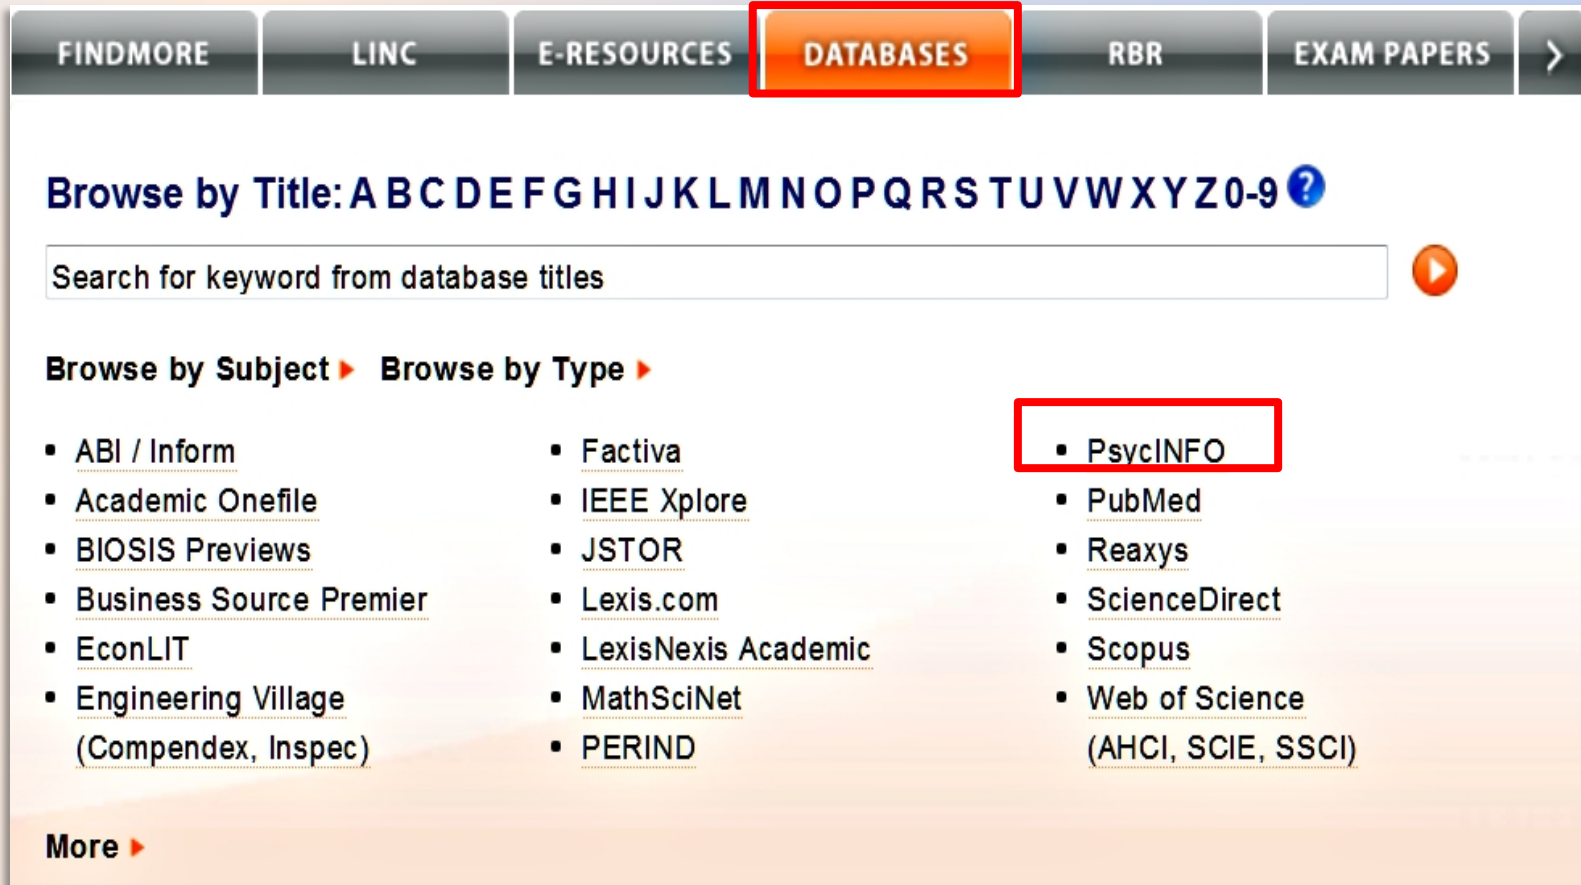

4b. Use parentheses for synonyms

- Use parentheses (...) to group words/phrases that you want processed first

Search statement:

Milgram AND (experiment* OR stud*) AND replicat*

Database: PsycINFO

The screenshot shows a library website with a navigation bar at the top. The 'DATABASES' tab is highlighted with a red box. Below the navigation bar, there is a 'Browse by Title' section with an alphabetical index and a search box. Below the search box, there are two tabs: 'Browse by Subject' and 'Browse by Type'. Under 'Browse by Type', the 'PsycINFO' database is listed and highlighted with a red box. Other databases listed include ABI / Inform, Academic Onefile, BIOSIS Previews, Business Source Premier, EconLIT, Engineering Village (Compendex, Inspec), Factiva, IEEE Xplore, JSTOR, Lexis.com, LexisNexis Academic, MathSciNet, PERIND, PubMed, Reaxys, ScienceDirect, Scopus, and Web of Science (AHCI, SCIE, SSCI). A 'More' link is also present at the bottom left of the database list.

4.

In their own words: Explaining obedience to authority through an examination of participants' comments. [References].

Burger, Jerry M; Girgis, Zackary M; Manning, Caroline C.

Social Psychological and Personality Science. Vol.2(5), Sep 2011, pp. 460-466.

The authors examined data generated during a replication of Milgram's obedience studies to address some lingering questions about those studies. In Study 1, judges coded comments participants made during experimental and debriefing sessions. Participants who refused to follow the experimenter's instructions were significantly more likely to express a sense of personal responsibility than those who followed the instructions. Participants who expressed concern for the well-being of the learner exhibited a greater reluctance to continue the procedure than did those not expressing this concern. However, whether participants expressed concern for the learner was not related to whether they ultimately continued the procedure. Study 2 looked at participants' reactions to each of the experimenter's four prods. The further along the prod sequence the experimenter went, the less likely participants were to continue the procedure. This pattern challenges interpretations of the obedience studies based on the notion that participants were following orders. PsycINFO: LIMITS

- Used to refine (narrow) search results
- Numerous pre-defined limits:
 - Age Group
 - Publication type
 - Test and measures
 - Research methodology

The screenshot displays the PsycINFO search limits interface, organized into several sections. Two specific limits are highlighted with red boxes and arrows:

- Empirical study:** A red box highlights the '0400 Empirical Study' option under the 'Methodology' section. A red arrow points from this box to the '0400 Empirical Study' text.
- Peer-reviewed journal:** A red box highlights the '0110 Peer-Reviewed Journal' option under the 'Publication Types' section. A red arrow points from this box to the '0110 Peer-Reviewed Journal' text.

The interface includes the following sections and options:

- Classification Codes:**
 - 2100 General Psychology
 - 2140 History & Systems
 - 2200 Psychometrics & Statistics & Methodology
 - 2220 Tests & Testing
 - 2221 Sensory & Motor Testing
- Methodology:**
 - 0100 Brain Imaging
 - 0200 Clinical Case Study
 - 0400 Empirical Study
 - 0410 Experimental Replication
 - 0430 Followup Study
- Empirical Human Populations:**
 - Childhood <birth to 12 y>
 - Adolescence <13 to 17 y>
 - Adulthood <18+ years>
- Publication Types:**
 - 0100 Journal
 - 0110 Peer-Reviewed Journal
 - 0120 Non-Peer-Reviewed Jou
 - 0130 Peer-Reviewed Status U
 - 0200 Book
- Clinical Queries:**
 - Reviews (maximizes sensitivity)
 - Reviews (maximizes specificity)
 - Reviews (best balance of sensitivity and sp
 - Therapy (maximizes sensitivity)
 - Therapy (maximizes specificity)
 - Therapy (best balance of sensitivity and sp
- Intended Audience:**
 - General Public
 - Juvenile
 - Psychology: Professional & Re
- Age Groups:**
 - 100 Childhood <birth to age 12 y>
 - 120 Neonatal <birth to age 1 mo>
 - 140 Infancy <age 2 to 23 mo>
 - 160 Preschool Age <age 2 to 5 y>
 - 180 School Age <age 6 to 12 yrs>
- Document Types:**
 - Abstract Collection
 - Bibliography
 - Chapter
 - Column/Opinion
 - Comment/Reply

PsycINFO: Cite in APA style

The screenshot shows the PsycINFO search results interface. On the left, the 'Search Information' panel displays the search terms: 'You searched: (Milgram and (experiment* or stud*) and replicat*).mp. [mp=title, abstract, heading word, table of contents, key concepts, original title, tests & measures]'. Below this, it lists 'Search terms used: experiment*, milgram, replicat*, stud*'. The 'Search Returned:' section shows '22 text results'. The 'Sort By:' dropdown is set to '-'. The 'Filter By' section is also visible. The main results area shows a list of search results, with the first result partially visible: '4. [x] In the exam...'. An 'Export Citation List:' dialog box is open in the center. It has a title bar with a close button (X). The 'Export To' dropdown is set to 'Microsoft Word'. The 'Selected Results:' section shows '4-5'. The 'Select Fields to Display' section has four radio button options: 'Citation (Title, Author, Source)', 'Citation + Abstract', 'Citation + Abstract + Subject Headings', and 'Complete Reference' (which is selected). There is a 'Custom Fields' option with a 'Select Fields' button. The 'Select Citation Style' section has a dropdown menu set to 'APA'. The 'Include' section has three checkboxes: 'Link to External Resolver' (unchecked), 'Include URL' (checked), and 'Search History' (unchecked). At the bottom of the dialog are 'Cancel' and 'Export Citation(s)' buttons. The background interface includes a top navigation bar with 'Results Tools', 'Options', 'Print', 'Email', 'Export', 'Add to My Projects', and 'Keep Selected'. A 'GO >>' button is also visible. On the right side of the background interface, there are links for 'Abstract Reference', 'Complete Reference', 'Find Similar', 'Find Citing Articles', and 'Library Holdings' (with a 'Find It! @ NUS Libraries' button).
