NUS Libraries E-Resources Appropriate Use Policy

You are reminded that the Copyright Act applies to the whole National University of Singapore Library collection. The usage of materials/information retrieved from the Digital Library Collection by users from the NUS must abide by the conditions set out in the Copyright Act.

These materials can be used for academic research, learning and only for yourself. Under no circumstances should it be distributed to another person or used for commercial purposes.

Copyright infringement is a serious view of copyright infringement. Anyone contravening the Copyright Act is an offence in Singapore and the use of illegal copying is a violation of NUS rules and regulations. You may face disciplinary action.

Please note that this service will not be available between 5:00 am to 5:30 am (Singapore time) daily for maintenance.

If you have any problems accessing this service, please refer to the Frequently Asked Questions or contact Helpdesk.

I have read the Appropriate Use Policy for E-Resources and agree to abide by it

Molecular RNA Virology

Potato spindle tuber Virus*: IV. A replicating, low molecular weight RNA TO Dioses - Virology, 1971 - Elsevier

Earlier results had indicated that the spindle tuber disease of potato is induced by free RNA, and that neither conventional viruses nor proteins that could be construed as viral coat proteins are synthesized in infected plants. By a combination of density-gradient ...

The low molecular weight RNAs of Rous sarcoma virus: II. The 7 S RNA
JM Bishop, WE Levinson, D Sullivan, L Fambrough... - Virology, 1971 - Elsevier

Purified preparations of both the Bryan and Schmidt-Ruppin strains of Rous sarcoma virus contain two populations of low molecular weight RNA—a previously described 4.5 S RNA, which is probably transfer RNA, derived from the host cell, and a newly identified 7 S RNA...

Every NUS student has a free library account automatically.

- Renewal
- Reservation
- Closed stacks request
- Borrowing at self check-out stations
- Access to reading history
Every NUS student has a free library account automatically.
There is a life sciences subject guide that lists useful resources for your research.
You can deposit your publications and research data into NUS’ institutional repository.

**ScholarBank@NUS**

https://scholarbank.nus.edu.sg

**Benefits**

- Enable **compliance** with NUS and Funders’ policies
- Safe platform for **long-term** storage and sharing
- Increase research **visibility and impact**
- **Free** for NUS Researchers
- Facilitate **access** to academic and scientific output - anytime, anywhere
NUS Libraries organise a series of workshops to help grow your research capabilities.

NUS Libraries provides research support to early career researchers like you!
